

Agreement for the Stewardship Lifestyle Seminar

Mission Statement

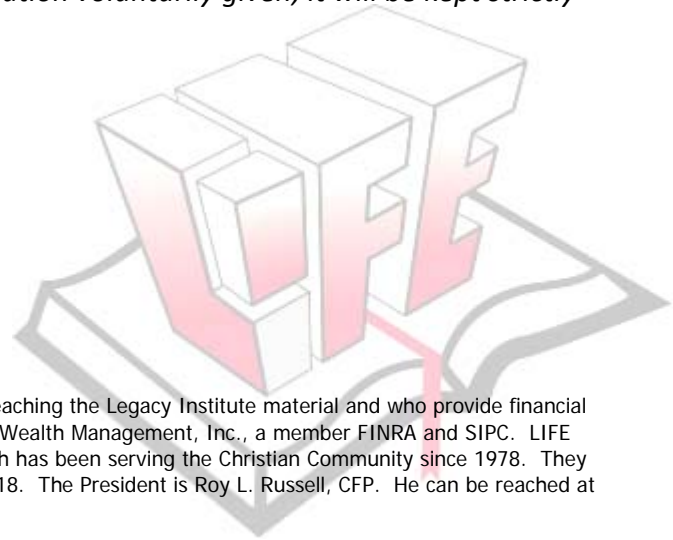

The primary purpose of the Stewardship Lifestyle Seminar is to encourage believers toward financial excellence in all things. To this end we will **preach** from the Bible the foundational concepts of Stewardship, **teach** practical applications regarding biblical truths, and **instruct** families on how to be better stewards of **all** their resources.

Teaching about Biblical Financial Management must become an essential part of today's local church. Your ministry team from The Life Financial Group, Inc. will emphasize biblical strategies for financial excellence throughout the seminar. In order to bring glory to God, and for the benefit of the church and its families, this Agreement is set forth by both parties represented herein. In as much as the Scriptures admonish the church to "do all things decently and in order" (1 Cor 14:40) and those who handle God's word to "correctly handles the word of truth" (2 Tim 2:15), the following standards are of significant importance to both parties:

Explanation and Disclosure:

The members of **The Legacy Institute for Financial Excellence** are employees of The LIFE Financial Group, Inc., of Douglassville, Pennsylvania. While our team is well grounded in Scripture they also work in the financial world. This provides both the heart for ministry and knowledge of financial matters to truly assist your church.

Our firm provides many benefits to the local church: a biblical foundation for financial choices, a challenge for parents to pass on financial wisdom, and practical financial applications for church families. Many pastors have found that our Tuesday night session to be of particular interest as we explain wills, trusts, and charitable giving techniques. Through our efforts we have seen financial resources bequeathed to local churches which otherwise might not have gone into God's work. We are humbled that the Lord allows us this privilege. To our knowledge, **no other ministry is directing assets toward the local church in this manner.** In addition to the local church we also seek to assist Bible Colleges and Seminaries that are preparing young men and women for the Lord's service. God's people will give as their heart is moved; we simply provide the knowledge needed to make wise decisions.

While at your church, we serve with you to encourage financial soundness in families, to promote consistent and regular giving, and to enhance the potential of future church funding via wills, trusts and charitable gifts. We consider this a privilege and a form of ministry if we can help direct assets toward your church.

We bear the responsibility of standing in your pulpit and handling the word of God very seriously. Though we are an advisory firm, **there will be no solicitation to use our services.** In our public communications we will speak in general terms of savings accounts, investment tools, retirement accounts and estate planning. This general information can be implemented by individuals or can be taken to those in your community who provide the same services we do. We are aware that the public nature of our presentation may cause families to ask for our professional services. In all this we can say that our goal while at your church is ministry not mammon.
