

### **Triplet Update...**

I can't believe that it has been 6 months since the Triplets were born. What a difference 6 months make. All 3 are rolling over, eating baby foods, babbling incessantly, growing normally, and perhaps most importantly sleeping through the night. Yes, life in the Hughes house, while being far from normal, is becoming more and more manageable. They are in the fun stage, where they react to people, laughing and giggling at anything. Tyler and Lincoln have both grown two tooth and we expect Alyson to cut a tooth any day now. Big brother, Jack (4) is going to preschool and loving it, while his little sister Emily (2) is enjoying more mommy time. Laura and Joel would like to thank everyone for their thoughts, prayers, gifts and support through this time of change.

Here are some pictures taken by Tim Benedict of Benedict Photography (email [benedictphotography@gmail.com](mailto:benedictphotography@gmail.com))

**And then there were 9...**

What a year! At the beginning of this year, Lana and I had 5 grandkids. The triplets brought that number up to 8, and now our other daughter, Jill had her second child. Micah Paul Miller was born August 15, 2010 (8 lbs. 1 oz., 20 1/2 inches). He is a beautiful baby with a dimpled chin and full head of dark hair. Below is a picture of big sister Sidney (2) with her little brother.

Sincerely,

Roy and Lana Russell
